Hello, I've just started studying for the MFE exam. I'm wondering from those of you who had experience, what's the best study material for this exam? I know there's some debate regarding ASM vs Actex. I've used Actex before, and I found it to be exceptionally helpful. But I never tried ASM yet, and I'm wondering if it could be better.

"The 12th edition of the manual has the following features: • The manual has been revised and updated to conform to the new syllabus for the June 2017 and subsequent exams. • The concepts of financial mathematics are explained in plain English, in a manner that appeals to your intuition and common sense. • The manual shows you tricks and shortcuts for various types of problems, warns you about common traps that students fall into, and tells you how to avoid them. • Over 1,000 problems with detailed solutions, about half of them from prior SOA/CAS exams and half that are original to the manual. • After each topic there are examples called "Stepping Stones" that are designed to tell you whether you have understood what you have just read, and to serve as a bridge to more difficult exam-level problems. • There is a summary of the key concepts and formulas after each topic. • There are 9 sets of Calculator Notes that give you detailed instructions for using the BA II Plus calculator. • Six original full-length (35 questions) practice exams, with complete solutions are included. • Over 600 pages in all."--Résumé de l'éditeur.

This edited volume, Hormone Therapy and Replacement in Cancer and Aging-related Diseases, is a collection of reviewed and relevant research chapters, offering a comprehensive overview of recent developments in the field of hormone replacement therapy. The book comprises single chapters authored by various researchers and edited by experts active in the hormone replacement therapy research area. All chapters are complete in themselves but united under a common research study topic. This publication aims at providing a thorough overview of the latest research efforts by international authors on hormone replacement therapy, and opens new possible research paths for further novel developments.

This book explains what actuaries are, what they do, and where they do it. It describes the ideas, techniques, and skills involved in the day-to-day work of actuaries. This second edition has been updated to reflect the rise of social networking and the internet, the progress toward a global knowledge-based economy, and the global expansion of the actuarial field that has occurred since the first edition. --from publisher description

Covering the essential aspects of the corrosion behavior of metals in aqueous environments, this book is designed with the flexibility needed for use in courses for upper-level undergraduate and graduate students, for concentrated courses in industry, for individual study, and as a reference book.
