Xinran is one of the most authentic voices from China writing today. I snap up each of her books as soon as they come out. I picked this one up with high hopes, as it's about the 'silent generation' of Chinese who lived through the Revolution and the suffering afterward -- the whole gamut of natural and political catastrophe that is modern China.

Xinran, acclaimed author of The Good Women of China, traveled across China seeking out the nation 's grandparents and great-grandparents, the men and women who experienced firsthand the tremendous changes of the modern era. Although many of them feared repercussions, they spoke with stunning candor about their hopes, fears, and struggles, and about what they witnessed: from the Long March to land reform, from Mao to marriage, from revolution to Westernization.

All that I know about her is from a book review I read many years ago in a Toronto Star newspaper article, China 's hidden history, which is fortunately still online. I was inspired by her role as a witness to people who not only needed a voice but a listener. Despite needing this voice, these people wouldn 't tell their stories easily.

have overtaken China's people over a century. The book is at once a journey by the author through time and place, and a memorial to those who have lived through war and civil war, persecution, invasion, revolution, famine, modernization, Westernization - and have survived into the 21st century. We meet everyday heroes, now in their seventies, eighties and nineties, from across this vast country - a herb woman at a market, retired teachers, a legendary 'double-gun woman', Red Guards, oil pioneers, an acrobat, a female general, a lantern maker, taxi drivers, and more- those whose voices, as Xinran says, 'will help our future understand our past'.

A work of oral history illuminates the diverse ways in which the Chinese perceive and understand their own modern history.

An unprecedented, intimate account of the lives of modern Chinese women, told by the women themselves -- true stories of the political and personal upheavals they have endured in their chaotic and repressive society For eight groundbreaking years, Xinran hosted a radio program in China during which she invited women to call in and talk about themselves. Broadcast every evening, Words on the Night Breeze became famous throughout the country for its unflinching portrayal of what it meant to be a woman in modern China. Centuries of obedience to their fathers, husbands and sons, followed by years of fear under Communism, had made women terrified of talking openly about their feelings. Xinran won their trust and, through her compassion and ability to listen, became the first woman to hear their true stories. This unforgettable book is the story of how Xinran negotiated the minefield of restrictions imposed on Chinese journalists to reach out to women across the country. Through the vivid intimacy of her writing, these women confide in the reader, sharing their deepest secrets. Whether they are the privileged wives of party leaders or peasants in a forgotten corner of the countryside, they tell of almost inconceivable suffering: forced marriages, sexual abuse, separation of parents from their children, extreme poverty. But they also talk about love -- about how, despite cruelty, despite politics, the urge to nurture and cherish remains. Their stories changed Xinran 's understanding of China forever. Her book will reveal the lives of Chinese women to the West as never before.

A first work of non-fiction available in English by the James Joyce Foundation Award-winning Chinese author of Brothers is presented through a framework of ten common phrases in the Chinese vernacular to offer insight into the nation's modern economic gaps, cultural transformations and ubiquitous practices of deception.

A shocking depiction of one of the world's most ruthless regimes -- and the story of one woman's fight to survive. I will never forget the camp. I cannot forget the eyes of the prisoners, expecting me to do something for them. They are innocent. I have to tell their story, to tell about the darkness they are in. It is so easy to suffocate us with the demons of powerlessness, shame, and guilt. But we aren't the ones who should feel ashamed. Born in China's north-western province, Sayragul Sauytbay trained as a doctor before being appointed a senior civil servant. But her life was upended when the Chinese authorities incarcerated her. Her crime: being Kazakh, one of China's ethnic minorities. The north-western province borders the largest number of foreign nations and is the point in China that is the closest to Europe. In recent years it has become home to over 1,200 penal camps -- modern-day gulags that are estimated to house three million members of the Kazakh and Uyghur minorities. Imprisoned solely due to their ethnicity, inmates are subjected to relentless punishment and torture, including being beaten, raped, and used as subjects for medical experiments. The camps represent the greatest systematic incarceration of an entire people since the Third Reich. In prison, Sauytbay was put to work teaching Chinese language, culture, and politics, in the course of which she gained access to secret information that revealed Beijing's long-term plans to undermine not only its minorities, but democracies around the world. Upon her escape to Europe she was reunited with her family, but still lives under constant threat of reprisal. This rare testimony from the biggest surveillance state in the world reveals not only the full, frightening scope of China's tyrannical ambitions, but also the resilience and courage of its author.

"Contributors approach the challenge of interpreting the science and technology of Chairman Mao's Cultural Revolution from different viewpoints, some as China-based scholars, others in the United States, and representing views of historians, political scientists, anthropologists, sociologists, literary scholars, and mathematicians. These scholars also represent a spectrum regarding their sense for the Cultural Revolution, ranging from skeptics who perceive little in the way of innovation or benefit from that period, to those who are agnostic, seeking evidence for S&T innovation, and others who lived through the Cultural Revolution, arguing the world has much yet to learn from socialist science"--

Rock 'n' roll, revolution, and romance are seductively woven together in this intense and moving novel from the author of Twenty Fragments of a Ravenous Youth In her flat in north London, Iona Kirkpatrick sets to work on a new project translating a collection of letters and diaries by a Chinese musician. With each letter and journal entry, Iona becomes more and more intrigued with the unfolding story of two lovers: Jian, a punk rocker who believes there is no art without political commitment, and Mu, the young woman he loves as fiercely as his ideals. Iona cannot possibly know that Jian is mere miles away in Dover, awaiting the uncertain fate of a political exile. Mu is still in Beijing, writing letters to London and desperately trying to track Jian down. As Iona charts the course of their twenty-year relationship, from its early beginnings at Beijing University to Jian 's defiant march in the Jasmine Revolution, her own empty life takes on an urgent purpose: to bring Jian and Mu together again before it 's too late.

Following her internationally bestselling book The Good Women of China, Xinran has written one of the most powerful accounts of the lives of Chinese women. Her searing stories of mothers who have been driven to abandon their daughters or give them up for adoption is a masterful and significant work of literary reportage and oral history. Xinran has gained entrance to the most pained, secret chambers in the hearts of Chinese mothers—students, successful businesswomen, midwives, peasants—who have given up their daughters. Whether as a consequence of the single-child policy, destructive age-old traditions, or hideous economic necessity, these women had to give up their daughters for adoption; others even had to watch as their baby daughters were taken away at birth and drowned. Xinran beautifully portrays the “ extra-birth guerrillas ” who travel the roads and the railways, evading the system, trying to hold on to more than one baby; naïve young girl students who have made life-wrecking mistakes; the “ pebble mother ” on the banks of the Yangzte River still looking into the depths for her stolen daughter; peasant women rejected by their families because they can 't produce a male heir; and Little Snow, the orphaned baby fostered by Xinran but confiscated by the state. For parents of adopted Chinese children and for the children themselves, this is an indispensable, powerful, and intensely moving book. Message from an Unknown Chinese Mother is powered by love and by heartbreak and will stay with readers long after they have turned the final page.
