Long time skateboard artist Sean Cliver has put together this staggering survey of over 1000 skateboard graphics from the early 80s to the start of the 00s, creating an indispensable insiders history as he did so. Alongside his own history, Sean has assembled a wealth of recollections and stories from prominent artists and skateboarders such as Andy Howell, Barry McGee, Ed Templeton, Steve Caballero, and Tony Hawk. The end result is a fascinating historical account of art in the skateboard subculture, as told by those directly involved with shaping its legendary creative face. Now, 10 years after its first printing, the graphics and stories within are as provocative as they day they were first conceived.

Celebrate the 10th anniversary of the greatest skateboard deck compilation with this special print edition of The Disposable Skateboard Bible. With the release of Disposable: A History of Skateboard Art in 2004, author Sean Cliver made a brilliant attempt at artfully cataloging every important skateboard deck ever released. In the process, he created a classic, but was left feeling less than satisfied. Ever the completist, the gaping omissions in the first book gnawed at him and drove him to envision compiling the ultimate encyclopedia of Skateboard decks. While Disposable was beautiful, capturing the essence of the aesthetic, The Disposable Skateboard Bible sets out to be the ultimate guide. The author's industry insider status (in 1989 he landed his first job as a designer at Powell-Peralta) allows him to guide readers through the culture and experience, the art and the mania of the skate world with authority and expertise. While the boards take center stage, fascinating vignettes and recollections by an A-list of skateboarding personalities from Tony Hawk to Mike Vallely, Mark Gonzales to Stacy Peralta and more.

Skateboard graphics took a quantum leap in offensive potential after the sport was reborn in the '90s. Artists such as Marc McKee, Todd Francis, Johnny 'Mojo' Munneryn, Winston Tseng and others brought dark humour and politically incorrect topics to the forefront of their illustrations, aiming to raise serious issues and skewer values. Agents Provocateurs

asks new questions of this boundary-pushing artistic genre and its place over the years. Did it save skateboarding? Are these controversial topics still relevant 20 years later?

A photo retrospective commemorating the hit MTV show's 10th anniversary includes stills from the best Jackass segments featuring Johnny Knoxville, Steve-O, Wee-Man, Bam Margera and more, as well as photos from group's early days at Big Brother magazine, in a book with plenty of skateboard tricks, practical jokes and all-around stupid stunts. You are invited for a ride, an inside view of Phillips Studios, to observe the wacky world of his crazed studio artists, and examine their graphic assignments. The story traces the roots of skateboarding with more than a half-century of Phillips' involvement. To be a skateboarder today is a much different experience than it was for much of the 1990s. The photographs, quotes, and anecdotal text in '93 til captures a time in skateboarding when making a livable income as a professional skater was a luxury and public understanding of skateboarding was at an all-time low. It was a time when skateboarding was searching for an identity, a time before Instagram and big corporate influences. Street skating was coming of age, testing its limitations and aligning itself with a new and innovative style of hip-hop culture that was emerging. Looking back, many skaters today feel as though the '90s were the golden years of skateboarding. '93 til is a captivating portal into a decade and a culture that is remembered with warmth and nostalgia. Much of the photography that Pete has unearthed for '93 til was buried in boxes for close to two decades and hasn't never been seen or published before. The 250-page book also contains several timeless images from his years shooting for SLAP and Transworld Skateboarding Magazine that will be familiar to the initiated. In addition to his stunning action shots are plenty of portraits and unguarded, candid moments that span from the late '80s up through 2004. The book reveals a raw, unapologetic perspective of a world that no longer exists. Also included in the book alongside Pete's imagery are quotes and anecdotes from legends like Tony Hawk, Arto Saari, Jamie Thomas, Guy Mariano, Nyjah Huston, Geoff Rowley, Stevie Williams and others. Pete moved on from his career in skate photography in 2004 and is currently living in Brooklyn.

In the skateboard universe the evolution of riding technique, skateboard decks, graphics and art are well documented. Until now, however, skateboard shoes have received little attention. Made for Skate tells the story of skateboard footwear as seen through the eyes of those who lived it. Along with the classics by companies such as Vans, Airwalk, Etnies, and Duffs it features hard-to-find and one-of-a-kind shoes that emerged throughout almost five decades of skate history all photographed superlatively. This book provides an exhaustive overview of the history and styles of skate shoes and is based on the collection of the Museum of Skateboard History in Stuttgart, Germany. Discover, for instance, why the legendary Bones Brigade had to scrounge for shoes at the height of their fame and how key design features such as the lace saver provided protection and functionality. Skate personalities we meet include Stacy Peralta, Lance Mountain, Tony Hawk, Rodney Mullen, Steve Caballero, Natas

Every culture has a creation myth, and skateboarding is no different. The Ollie forged a new identity for skateboarding after its invention in the 1970s, and it lies at the root of nearly every significant move in street skating today. This groundbreaking no-handed aerial has also affected the evolution of surfing and snowboarding, and has left a permanent impression upon popular culture and language. This, then, is the story of the Ollie, the history and technology that set the stage for its creation, the pioneers who made it happen, and the skaters who used it to start a revolution.

For thirty years, Thrasher has been the bible of the skateboarding world. Collected here for the first time are thirty years' worth of outrageous, memorable, iconic, and collectible covers—front pages that caught every skater kid's eye and became the most treasured records of the history of the skate scene. From early pioneers such as Jay Adams, Tony Alva, and Steve Caballero through the giants of the 1980s and 1990s, including Tony Hawk and Brian Anderson, to such legends of the scene today as James Hardy and Justin Figueroa, every icon of skating has graced the cover of Thrasher, captured in mid-air and mid-action by the sharpest shooters around. Organized chronologically, and including every cover published in Thrasher's first thirty years—even long out-of-print and hard-to-find collectible issues—the book at last reveals the stories behind these legendary cover-photo shoots, as told by the skaters, photographers, and editors who made these the most iconic mementos of skate culture.

The dynamic images from the analog era found in PUSH demonstrate why Grant Brittain has become one of the most widely-recognized skateboard photographers on the planet. Brittain has been at the epicenter of California skateboarding since landing a job at Del Mar Skate Ranch in 1978. Brittain started shooting Kodachrome at Del Mar in 1979, and within a few years he was submitting photographs to TransWorld Skateboarding magazine, going on to become Photo Editor there shortly thereafter. In 1987, "The Push," a photo of Tod Swank made the cover of TransWorld, becoming one of the most recognizable photos in all of skateboarding. J Grant Brittain has mentored dozens of budding photographers while achieving the status of icon to skateboarders around the world. It's high time the world gets a chance to see this collection of his work from the 1980s that has inspired so many. PUSH includes a foreword by Tony Hawk, an introduction by Miki Vuckovich and a fold-out timeline by Gary Scott Davis.
