NEW YORK TIMES BESTSELLER As Featured on PBS How to stay healthy and boost immunity with #1 New York Times bestselling author Dr. Joel Fuhrman's no-nonsense, results-driven nutrition plan. As a family physician for over 30 years and #1 New York Times bestselling author Joel Fuhrman, M.D. will tell you that doctors and medications cannot grant you excellent health or protection from disease and suffering. The most effective health-care is proper self-care and that starts with changing the way we eat. Eat for Life delivers a science-backed nutrition-based program that prevents and even reverses most medical problems within three to six months. This is a bold claim but the science and the tens of thousands who have tried this approach back it up. The truth is: you simply do not have to be sick. Most Americans are deficient in the vitamins, minerals and phytonutrients found in plants (micronutrients), and consume too many fats, proteins, carbohydrates (macronutrients). The results of this standard diet is that we are not only shortening our lives but damaging our energy, vitality, and daily health by eating packaged and processed foods, excessive meat and dairy, and unsustainable amounts of salt and sugar. What we need is to consume foods rich in phytonutrients such as greens, beans, onions, mushrooms, berries, and seeds. These delicious and abundant foods contain the largest assortment of micronutrients and when consumed in adequate quantities they prevent and reverse diabetes and heart-disease, lower cholesterol and blood pressure, and reduce hunger and food cravings. Rooted in the latest nutritional science and complete with recipes, menu plans, and testimonials, Eat for Life offers everything you need to change the course of your health and put this life-changing program to work for you.

We ' re fatter, sicker and hungrier than ever, and the diet industry – with its trendy weight-loss protocols and eat-this-not that ratios of fat, carbs and protein – offers only temporary short-term solutions at the expense of our permanent long-term health. As a result, we ' re trapped in a cycle of food addiction, toxic hunger and overeating. In *The End of Dieting*, Dr Joel Fuhrman, a doctor and the New York Times bestselling author of *Eat to Live* and *The End of Diabetes*, shows us how to break free from this vicious cycle once and for all. Dr Fuhrman lays out in full all the dietary and nutritional advice necessary to eat our way to a healthier and happier life. At the centre of his revolutionary plan is his trademark health formula: Health = Nutrients/Calories. Foods high in nutrient density, according to Dr Fuhrman, are more satisfying than foods high in calories. They eliminate our cravings for fat, sweets and carbs. The more nutrient-dense food we consume, the more our bodies can function as the self-healing machines they ' re designed to be. Weight will drop, diseases can reverse course and disappear and overall our lives can be longer and healthier. The core of *The End of Dieting* is an easy to follow programme that kickstarts your new life outside of the diet mill:

- Simple meals for 10 days, to retrain your taste buds and detox
- Gourmet flavourful recipes
- A two-week programme, to flood your body with nutrients

The End of Dieting is the book we have been waiting for – a proven, effective and sustainable approach to eating that lets us prevent and reverse disease, lose weight and reclaim our right to excellent health.

The New York Times bestselling author of *Eat to Live* and *Super Immunity* and one of the country ' s leading experts on preventive medicine offers a scientifically proven, practical program to prevent and reverse diabetes—without drugs. At last, a breakthrough program to combat the rising diabetes epidemic and help millions of diabetics, as well as those suffering with high blood pressure and heart disease. Joel Fuhrman, M.D. Research director of the Nutritional Research Foundation, shows you how to live a long, healthy, and happy life—disease free. He offers a complete health transformation, starting with a diet with a high nutrient-per-calorie ratio that can be adapted for individual needs. Dr. Fuhrman makes clear that we don ' t have to “control” diabetes. Patients can choose to follow better nutritional guidelines that will control it for them, even before they have lost excess weight. The end result is a medical breakthrough—a comprehensive reversal of the disease.
