While America held its breath in the days immediately following 9/11, a small but determined group of CIA agents covertly began to change history. This is the riveting first-person account of the treacherous top-secret mission inside Afghanistan to set the stage for the defeat of the Taliban and launch the war on terror. As thrilling as any novel, *First In* is a uniquely intimate look at a mission that began the U.S. retaliation against terrorism – and reclaimed the country of Afghanistan for its people.

An award-winning journalist reveals the dramatic true story of the CIA's Team Alpha, the first Americans to be dropped behind enemy lines in Afghanistan after 9/11. America is reeling; Al-Qaeda has struck and thousands are dead. The country scrambles to respond, but the Pentagon has no plan for Afghanistan—where Osama bin Laden masterminded the attack and is protected by the Taliban. Instead, the CIA steps forward to spearhead the war. Eight CIA officers are dropped into the mountains of northern Afghanistan on October 17, 2001. They are Team Alpha, an eclectic band of linguists, tribal experts, and elite warriors: the first Americans to operate inside Taliban territory. Their covert mission is to track down Al-Qaeda and stop the terrorists from infiltrating the United States again. *First Casualty* places you with Team Alpha as the CIA rides into battle on horseback alongside the warlord Abdul Rashid Dostum. In Washington, DC, few trust that the CIA men, the Green Berets, and the Americans' outnumbered Afghan allies can prevail before winter sets in. On the ground, Team Alpha is undeterred. The Taliban is routed but hatches a plot with Al-Qaeda to hit back. Hundreds of suicidal fighters, many hiding weapons, fake a surrender and are transported to Qala-i Jangi—the “Fort of War.” Team Alpha's Mike Spann, an ex-Marine, and David Tyson, a polyglot former Central Asian studies academic, seize America's initial opportunity to extract intelligence from men trained by bin Laden—among them a young Muslim convert from California. The prisoners revolt and one CIA officer falls—the first casualty in America's longest war, which will last two decades. The other CIA man shoots dead the Al-Qaeda jihadists attacking his comrade. To survive, he must fight his way out against overwhelming odds. Award-winning author Toby Harnden gained unprecedented access to all living Team Alpha members and every level of the CIA. Superbly researched, *First Casualty* draws on extensive interviews, secret documents, and deep reporting inside Afghanistan. As gripping as any adventure novel, yet intimate and profoundly moving, it tells how America found a winning strategy only to abandon it. Harnden reveals that the lessons of early victory and the haunting foretelling it contained—unreliable allies, ethnic rivalries, suicide attacks, and errant US bombs—were ignored, tragically fueling a twenty-year conflict. "Masterful, complex, and heartfelt, from the deeply personal to the critically strategic. Captures many lessons on many levels."
—Ambassador Hank Crumpton, former senior CIA officer

Winner of the 2018 National Book Critics Circle Award for Nonfiction Longlisted for the 2018 National Book Award for Nonfiction From the Pulitzer Prize-winning author of *Ghost Wars*, the epic and enthralling story of America's intelligence, military, and diplomatic efforts to defeat Al Qaeda and the Taliban in Afghanistan and Pakistan since 9/11 Prior to 9/11, the United States had been carrying out small-scale covert operations in Afghanistan, ostensibly in cooperation, although often in direct opposition, with I.S.I., the Pakistani intelligence agency. While the US was trying to quell extremists, a highly secretive and compartmentalized wing of I.S.I., known as "Directorate S," was covertly training, arming, and seeking to legitimize the Taliban, in order to enlarge Pakistan's sphere of influence. After 9/11, when fifty-nine countries, led by the U. S., deployed troops or provided aid to Afghanistan in an effort to flush out the Taliban and Al Qaeda, the U.S. was set on an invisible slow-motion collision course with Pakistan. Today we know that the war in Afghanistan would falter badly because of military hubris at the highest levels of the Pentagon, the drain on resources and provocation in the Muslim world caused by the U.S.-led invasion of Iraq, and corruption. But more than anything, as Coll makes painfully clear, the war in Afghanistan was doomed because of the failure of the United States to apprehend the motivations and intentions of I.S.I.'s "Directorate S". This was a swirling and shadowy struggle of historic proportions, which endured over a decade and across both the Bush and Obama administrations, involving multiple secret intelligence agencies, a litany of incongruous strategies and tactics, and dozens of players, including some of the most prominent military and political figures. A sprawling American tragedy, the war was an open clash of arms but also a covert melee of ideas, secrets, and subterranean violence. Coll excavates this grand battle, which took place away from the gaze of the American public. With unsurpassed expertise, original research, and attention to detail, he brings to life a narrative at once vast and intricate, local and global, propulsive and painstaking. This is the definitive explanation of how America came to be so badly ensnared in an elaborate, factional, and seemingly interminable conflict in South Asia. Nothing less than a forensic examination of the personal and political forces that shape world history, *Directorate S* is a complete masterpiece of both investigative and narrative journalism.

A New York Times reporter offers a powerful indictment of the CIA and its intelligence-gathering capabilities as he traces the history of the organization from the end of World War II to Iraq, in a study that condemns the CIA for its record, its inability to understand world affairs, the violence it has unleashed, and its undermining of American politics. Reprint. 150,000 first printing.

A national bestseller, this extraordinary work of investigative reporting uncovers the identities, and the remarkable stories, of the CIA secret agents who died anonymously in the service of their country. In the entrance of the CIA headquarters looms a huge marble wall into which seventy-one stars are carved—each representing an agent who has died in the line of duty. Official CIA records only name thirty-five of them, however. Undeterred by claims that revealing the identities of these "nameless stars" might compromise national security, Ted Gup sorted through thousands of documents and interviewed over 400 CIA officers in his attempt to bring their long-hidden stories to light. The result of this extraordinary work of investigation is a surprising glimpse at the real lives of secret agents, and an unprecedented history of the most compelling—and controversial—department of the US government.

The director of the American-Afghan war describes how he orchestrated the defeat of the Taliban in the region by forging separate alliances with warlords, Taliban dissidents, and the Pakistani intelligence service.
