between the two, from today's brightest economist. In this classic discussion, Milton and Rose Friedman explain how our freedom has been eroded and our affluence undermined through the explosion of laws, regulations, agencies, and spending in Washington. This important analysis reveals what has gone wrong in America in the past and what is necessary for our economic health to flourish.

government controls for achieving real equality and security, protecting consumers and workers, providing education, and avoiding inflation and unemployment

The Nobel Prize–winning economist explains how value is created, and how that affects everything from your paycheck to global markets. In this “ lively, enlightening introduction to monetary history ” (Kirkus Reviews), one of the leading figures of the Chicago school of economics that rejected the theories of John Maynard Keynes offers a journey through history to illustrate the importance of understanding monetary economics, and how monetary theory can ignite or deepen inflation. With anecdotes revealing the far-reaching consequences of seemingly

the lives of the Friedmans: their involvement with world leaders and many of this century's most important public policy issues. 26 photos.

Friedman discusses a government system that is no longer controlled by "we, the people." Instead of Lincoln's government "of the people, by the people, and for the people," we now have a government "of the people, by the bureaucrats, for the bureaucrats," including the elected representatives who have become bureaucrats.

the economics of John Maynard Keynes.

Analyzes the failure of the Reagan Administration's attempts to greatly reduce taxes, regulations, and government spending and suggests practical changes

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world

economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, THE COMMANDING HEIGHTS shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.
