24 Shampoos for Hair Growth 2020 | Best Shampoo for Longer ...
Shampoo contains ingredients that replace the protective coating on the hair. Silicones detangle hair, smooth the hair cuticle and add shine. Fatty alcohols help prevent static and fly-away or frizzy hair. Shampoo typically is more acidic than soap, so it may contain ingredients to bring down the product of the pH.

How Shampoo Works and the Chemistry Behind It
Sulfates are added to many shampoos to increase their foaming action, but have been shown to irritate the skin and scalp, strip hair of its natural oils leaving it dry and brittle, and can cause long-term damage to hair. artnaturals sulfate-free products are designed to do just the opposite, and our botanical oils and extracts clean without stripping, drying, or irritating.
