Industrial Revolution: a documentary history - Series One

The Industrial Revolution was the changeover to new industrial processes from somewhere in 1760 to sometime between 1820 and 1840.

This evolution comprised of moving from manufacturing goods with hands to machineries, bettered efficacy of water power, manufacturing of new chemicals and producing iron through new ways, usage of steam power, the advancement of machine tools and the upsurge of the fa

Industrial Revolution A

The Industrial Revolution, now also known as the First Industrial Revolution, was the transition to new manufacturing processes in Europe and the United States, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power and ...
