One man loses everything to magic-and will do anything to prevent it from taking over his world. Magic has never been a part of Reandn's life. Almost gone from Keland when he was born, there is no trace of it left by the time he patrols the Keep lands as an elite King's Wolf. Magic has never been a part of Reandn's life. Until the people under his care start dying. Until the threat extends to his family-and then turns on him. Someone, somewhere, is trying to draw magic back into Keland, and they don't care what-or who-is destroyed in the process. But Reandn does.

In this exciting debut, author Keri Arthur explodes onto the supernatural scene with a sexy, sensuous tale of intrigue and suspense set in a world where legends walk and the shady paths of the underworld are far more sinister than anyone envisioned. A rare hybrid of vampire and werewolf, Riley Jenson and her twin brother, Rhoan, work for Melbourne's Directorate of Other Races, an organization created to police the supernatural races-and protect humans from their depredations. While Rhoan is an exalted guardian, a.k.a. assassin, Riley is merely an office worker-until her brother goes missing on one of his missions. The timing couldn't be worse. More werewolf than vampire, Riley is vulnerable to the moon heat, the weeklong period before the full moon, when her need to mate becomes all-consuming... Luckily Riley has two willing partners to satisfy her every need. But she will have to control her urges if she's going to find her brother...Easier said than done as the city pulses with frenzied desire, and Riley is confronted with a very powerful-and delectably naked-vamp who raises her temperature like never before. In matters carnal, Riley has met her match. But in matters criminal, she must follow her instincts not only to find her brother but to stop an unholy harvest. For someone is doing some shifty cloning in an attempt to produce the ultimate warrior-by tapping into the genome of nonhumans like Rhoan. Now Riley knows just how dangerous the world is for her kind-and just how much it needs her. BONUS: This edition contains an excerpt from Keri Arthur's Kissing Sin.

Magic is back-and only the man who once tried to stop it can save his world from what happens next. Magic is back in Reandn's world-and when wizards use it to slaughter his Remote Wolf Patrol, he is left adrift in a society still reeling from the changes wrought by magic's return. But King's Keep offers him a chance to regain his rank: escort the beloved Highborn woman through the rebel-torn Resioran border to King's Keep. Soon enough Reandn is embroiled in wizard's treachery. To make it out alive-to keep Kalena alive and prevent a catastrophic wizard war-he'll have to face his own worst enemy. Magic. A dangerous man with piercing green eyes. A powerful ability that is rearing out of control. Daughtry stumbles into a world where magic is real and the possibilities for her future are greater than she's ever believed possible. But the road to that future isn't easy to navigate. For Stella, the Witches' Council Summit is supposed to be about getting to know her fellow witches but instead she finds herself on trial for murder. The accusations may be evidence of a sinister plot at work or they may be a ruse to draw attention away from the mounting tensions as the witches vie for supremacy. Reaching out to her boyfriend Evan for help would be reassuring... if he wasn't oddly unreachable, working a case even his closest friend doesn't know anything about. As the ominous reasons behind the trial come to light, an assassin unleashes a terrifying campaign against the Council candidates. With tensions running high and accusations flying faster than a backfiring spell, the witches are forced to gather together for safety, but that might just lead to an implosion as the culprit is sought. Plus there's the small matter of an ancient talisman the werewolves want, a talisman that they say was stolen, but the more she investigates, the more it appears that it isn't the simple artefact they claim it to be. With Evan still missing and her world more complicated than ever, the choices Stella must make might confirm her place as a formidable witch in her new world or leave her excommunicated... forever.
