Paint Lab is packed with unique and experimental techniques and ideas in painting. This hands-on book is organized into 52 units, which may, but don't need to be explored on a weekly basis. The labs can be worked on in any order, so that you can flip around to learn a new mixed-media technique or be inspired by a particular painting theme or application. The underlying message of this book is that, as an artist, you should learn and gain expertise through experimentation and play. There is no right or wrong result, rather you will find new forms of expression in your work and gain confidence in your skills. Designed to inform and inspire new artists and rekindle passion for painting in experienced artists, this book offers a range of exercises broken down by theme: Who (artist-inspired), What (tools and materials), When (a time-based concept), Where (a sense of place), and How (inspired by a technique or method). Paint Lab is illustrated with brilliant full-color images and multiple examples of each exercise. This book offers you a visual, non-linear approach to learning painting techniques, and reinforces a fun and fearless approach to creating art.

Mapmaking fulfills one of our most ancient and deepseated desires: understanding the world around us and our place in it. But maps need not just show continents and oceans: there are maps to heaven and hell; to happiness and despair; maps of moods, matrimony, and mythological places. There are maps to popular culture, from Gulliver's Island to Gilligan's Island. There are speculative maps of the world before it was known, and maps to secret places known only to the mapmaker. Artists' maps show another kind of uncharted realm: the imagination. What all these maps have in common is their creators' willingness to venture beyond the boundaries of geography or convention. You Are Here is a wide-ranging collection of such superbly inventive maps. These are charts of places you're not expected to find, but a voyage you take in your mind: an exploration of the ideal country estate from a dog's perspective; a guide to buried treasure on Skeleton
