Islamic ornament is the use of decorative patterns in Islamic art. They can be broadly divided into the arabesque, using curving plant-based elements, geometric patterns with straight lines or regular curves, and calligraphy, consisting of religious texts with stylised appearance, used both decoratively and to convey meaning. All three often involve elaborate interlacing. The three types of ornament are often used together. Islamic decoration has had a significant influence on European decorativ

In architecture and decorative art, ornament is a decoration used to embellish parts of a building or object. Large figurative elements such as monumental sculpture and their equivalents in decorative art are excluded from the term; most ornament does not include human figures, and if present they are small compared to the overall scale. Architectural ornament can be carved from stone, wood or ...
