'Blazes with pace and wit - Crilley has produced a real page turner' Ed McDonald, author of BLACKWING Perfect for fans of Ben Aaronovitch and Jim Butcher. The name's Gideon Tau, but everyone just calls me London. I work for the Delphic Division, the occult investigative unit of the South African Police Service. My life revolves around two things - finding out who killed my daughter and imagining what I'm going to do to the bastard when I catch him. I have two friends in my life. The first is my boss, Armitage, a fifty-something DCI from Yorkshire who looks more like someone's mother than a cop. Don't let that fool you. The second is the dog, my magical spirit guide. He talks. He's an alcoholic. And he's a mean drunk. Life is pretty routine - I solve crimes, I search for my daughter's killer. Wash, rinse, repeat. Until the day I'm called out to the murder of a ramanga - a low-key vampire. It looks like an open and shut case. There's even CCTV footage of the killer. Except... the face on the CCTV footage? It's the face of the man who killed my daughter. And that's just the beginning of the trouble I'm about to get into.

The fog-choked sequel to Poison City, about which Claire North raves, 'Rarely has policing the apocalypse been so awesome!' Cop. Drunkard. Low-grade magic user. My name is Gideon Tau, but most people just call me London. (Because that's where I'm from. Get it? Hilarious.) Three years ago, someone killed my daughter. I sacrificed everything (the human race included) to learn his name - and then had to allow that knowledge to be erased from my mind in order to save the world I'd doomed. Fantastic. Now I have to start over from scratch, and who do I have to help me find my daughter's killer? The reanimated corpse of my boss, a low-rent P.I. who's heavily into conspiracy theories, and my alcoholic, foul-mouthed demonic sidekick dog. Our journey will take us from Durban, South Africa to London, England, where we'll have to contend with Fae gangs fighting for territory, the murder-suicide of two Delphic agents and the seven deadly sins. Oh, and did I mention planning a heist to break into the most secure bank in Faerie? Because that's on the agenda too. And if we fail? An ancient horned god will destroy London. (The city, not me. Although, to be fair, I don't think I'll survive either

Eberron holds many wonders, from dragonmarks to warforged, deadly dungeons to elemental airships. As the shadows of evil and conspiracy threaten to envelop the land, heroes of prophecy come forth to save the day. Collects the 2012 Annual, Infestation 2: Dungeons & Dragons, and Eye of the Wolf.

THE END OF THE UNIVERSE IS ONLY A HOP, SKIP, AND SLIGHT STUMBLE-THROUGH-A-WORMHOLE AWAY Harry Priest just wants to make sure his ex-wife doesn't take away his visitation rights, and his dead-end job cleaning up crime scenes for the past ten years isn't doing him any favors. But when Harry attends what he thinks is a routine death, he stumbles onto a secret multiverse of alternate realities all reachable through universe-hopping gates. Policing these worlds is Havelock Graves, the Interstitial Crime Department's top agent for ten years running (according to him). When Harry accidentally messes with the ICD crime scene, Graves and his team are demoted as low as they can go: Department Zero. They're recruiting Harry too—not because he charmed them, but because he just might hold the key to saving the universe . . . and getting their old jobs back. To do this, Graves and his team set out to solve the crime that lost them their jobs. A crime that involves a cult planning to hunt down and steal the fabled Spear of Destiny in order to free the Great Old One Cthulhu from his endless sleep in the Dreamlands. (Because that's another thing Harry soon finds out. Everything H. P. Lovecraft wrote is true. Like, everything.) The team will have to fight its way through realities filled with Martian technology and evade mad priests (Harry's favorite kind) in a realm of floating landmasses where magic really exists. And Harry has to do it all in time to say good night to his daughter. From the Trade Paperback edition.

Steampunk Sherlock Holmes meets The X-Files with a dash of romantic tension and a large dose of adventure. When Nikola Tesla is murdered and blueprints for his super weapons are stolen, Tweed and Nightingale are drawn into a global cat and mouse chase with his killers. What's more, it seems that the people who shot Nikola Tesla are the same people responsible for Octavia's mother's disappearance. As the two cases intertwine, Tweed and Nightingale's investigations lead them to a murdered archeologist and a secret society called The Hermetic Order of Osiris. Fleeing the cult's wrath, they go undercover on the luxury airship, The Albion, setting out on her maiden voyage to Tutankhamen's View, a five star hotel built in the hollowed-out and refurbished Great Pyramid of Giza. In Egypt, the duo begin to unravel the terrible truth behind Tesla's death, a secret so earth-shattering that if revealed it would mean rewriting the entire history of the world. But if the cult's plans aren't stopped, Britain may lose the future. From the Hardcover edition.

The NYPD is the best and most ambitious antiterror operation in the world. Its seat-of-the-pants intelligence is the gold standard for all others. Christopher Dickey, who has reported on international terrorism for more than twenty-five years, takes readers into the secret command center of the New York City Police Department's counterterrorism division, then onto the streets with cops ready for the toughest urban combat the twenty-first century can throw at them. But behind the tactical shows of force staged by the police, there lies a much more ambitious and controversial strategy: to go anywhere and use almost any means to keep the city from becoming, once again, Ground Zero. This is the story of the coming war in America's cities and New York's shadow war, waged around the globe to stop it before it begins. Drawing on unparalleled access to Police Commissioner Ray Kelly and other top officials, Dickey explores the most ambitious intelligence operation ever organized by a metropolitan police department. Headed by David Cohen, who ran the CIA's operations inside the United States in the 1980s and its global spying in the 1990s, the NYPD's counterterrorism division had uptothe minute details of new attacks set in motion to target Manhattan in 2002 and 2003. New York's finest are now seen by other police chiefs in the United States as the gold standard for counterterrorism operations and a model for even the FBI and the Department of Homeland Security. Yet as New Yorkers have come to feel safer, they've also grown worried about the NYPD's methods: sending its undercover agents to spy on Americans in other cities, rounding up hundreds of protesters preemptively before the 2004 Republican convention, and using confidential informants who may be more adept at plotting terror than the people they finger. *Securing the City* is a superb investigative reporter's stunning look inside the real world of cops who are ready to take on the world and at the ambiguous price we pay for the safety they provide.
