The real story behind the Tavistock Institute and its network, from a popular conspiracy expert The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them.

Every spring since 1954, a group of approximately one hundred of the world's most powerful businessmen, politicians, media moguls, and international royalty meet in secret for several days to discuss the course of the world. Called the Bilderberg Group after the Bilderberg Hotel in Oosterbeek, Holland where their first meeting was held, this off the record annual gathering is said to be where the globalist puppet masters plot and scheme. Does this group of power elite develop new political, economic, and cultural policies that are then covertly implemented by their underlings? Do they choose who our world leaders will be, including the next president of the United States? Is the Bilderberg Group a shadow government? Are they the Illuminati? Why has the mainstream media had a complete blackout regarding their meetings for decades? Who attends? And who pays for it? Is this "just another conference?" Or, are the "conspiracy theorists" right? What is the evidence? How were they first discovered? What are they doing? And should the public be concerned? Secret society expert Mark Dice will show you the hidden history, financial records, and some of the insider leaks showing how this small group's consensus has staggering effects on the political landscape of the world, global economies, wars, and more, as he uncovers The Bilderberg Group: Facts & Fiction.

The break up of countries, the end of the current planetary economic model, the regionalization of economies, the birth of global supra national projects. Change of the cosmic energy of Atlanticism (NATO, USA, North Atlantic) to the Eastern and Pacific zone (Silk Road, China, Eurasia) with Latin America as its second node. The book explains what the new economic model will need to be constructed and agreed on after the global collapse of our world in 2 or 3 years.

Delving into the heart of the business of keeping and leaking secrets, this work shows how the enterprise of WikiLeaks and Assange is shrouded in mystery, but nonetheless, seeks to expose Assange as an intelligence asset tasked with sustaining the global status quo. Through careful analysis, interviews, and scrutiny of the organization as a whole, this inquiry gets to the bottom of the intriguing and mesmerizing story behind WikiLeaks.

Since 1954, a discrete and select group of wealthy and powerful individuals have attended a private, yearly conference to discuss matters of their choosing. This group represents European and North American elites, as well as new talent and rising stars, from the worlds of politics, business, media, academia, the military and even royalty, and has included household names such as Margaret Thatcher, Henry Kissinger and even Prince Philip. In recent years their number have featured David Cameron, Tony Blair, Angela Merkel, Bill Clinton and David Rockefeller. These are 'the Bilderbergers', named after the hotel where their secret gatherings were first hosted. What is their purpose, why do they meet, and what do they want? Investigative writer Gerhard Wisnewski explores the numerous claims of conspiracy that swirl around the group, revealing names of participants, their agendas and their goals. The scene opens in the sun-kissed seaside resort of Vouliagmeni, Greece, where Wisnewski attempts to observe and report on a Bilderberg conference. He soon attracts aggressive attention from police and undercover security, and it is made abundantly clear he is not welcome. From this rude introduction, Wisnewski works backwards to the founding of the Bilderbergers in 1954 by a shadowy Jesuit with secret service allegiances. Examining records and hidden reports, Wisnewski uncovers the true history of the organization, the alliances among key individuals and their common interests. Are the Bilderbergers puppet-masters, pulling strings behind the scenes? Are plans afoot to create a global government and a new political system? To what extent do they represent a clandestine super-government? This book offers a unique view into the workings of power, and the secret methods of those who seek to govern and control behind the scenes.

A wide variety of extremist groups -- Islamic fundamentalists, neo-Nazis -- share the oddly similar belief that a tiny shadowy elite rule the world from a secret room. In Them, journalist Jon Ronson has joined the extremists to track down the fabled secret room. As a journalist and a Jew, Ronson was often considered one of "Them" but he had no idea if their meetings actually took place. Was he just not invited? Them takes us across three continents and into the secret room. Along the way he meets Omar Bakri Mohammed, considered one of the most dangerous men in Great Britain, PR-savvy Ku Klux Klan Grand Wizard Thom Robb, and the survivors of Ruby Ridge. He is chased by men in dark glasses and unmasked as a Jew in the middle of a Jihad training camp. In the forests of northern California he even witnesses CEOs and leading politicians -- like Dick Cheney and George Bush -- undertake a bizarre owl ritual. Ronson's investigations, by turns creepy and comical, reveal some alarming things about the looking-glass world of "us" and "them." Them is a deep and fascinating look at the lives and minds of extremists. Are the extremists onto something? Or is Jon Ronson becoming one of them?

Now, in the pages of Jim Tucker's Bilderberg Diary, Jim Tucker lays out, for the first time, his entire remarkable history of covering Bilderberg (and its Trilateral and CFR allies), literally infiltrating Bilderberg meetings, procuring their private documents, and working relentlessly to shine the spotlight of public scrutiny on Bilderberg's affairs. Tucker's prose, first-hand, folksy and colorful, will introduce you to the little-known arena of the Bilderberg elite. This volume is a memorable and panoramic journey that will lay bare the realities behind modern-day international power politics in a way that you've never seen before. And the book includes several representative lists of Bilderberg membership over the past several years, more than 80 fascinating on-the-spot photographs of the Bilderbergers in action and photo reproductions of actual Bilderberg documents secured by Tucker. Plus a fascinating Afterword by Willis A. Carto, the man who first suggested Tucker cover Bilderberg for The Spotlight newspaper, realizing what was happening behind closed doors at Bilderberg meetings was far more important, and sinister, than Bilderberg press releases were admitting. If you've ever heard the mass media claim that concerns about Bilderberg are "just some crazy conspiracy theory," you'll definitely think otherwise as you travel with Jim Tucker into the world of Bilderberg.

Everyone has a story to tell. That's what I have been told. If I were to describe just who I am, the answer would be simple: I am you. I am the same as any one of you, and any of you could have written this story. I could tell you where I was born, where I grew up, where I went to school; but in all actuality, it doesn't really matter because it could have been Any City, USA. My love for this country and my love of life inspired me to put pen to paper merely because I am dumbfounded with where we've ended up. If I were to break it down in the purest form of what the reason is, I would have to say it's because of the shunning of factual information dismissed by the majority of the American public. As I wrote in the first two chapters of this book in detailed memories, it gives most of the individuals who have lived in my era a sense of how things have drastically changed. How they've become more complicated from a time when things were ever-so-simple-and how this was stolen from us by a very powerful group that still exists today. Yet, everyone just stands by and continues to endure the injustices to our human race across the globe. The family in this book portrays hope for the future. Their courageous struggle finds you rooting for the good guys like sitting in some theatre, biting your fingernails to the very end. The irony is that the timeline follows exactly with what is going on in today's world. Our heroes have

all been killed and the evildoers who have a plan for us must be stopped without question. The book lends the questions, "Did Jim Garrison-the only man who brought a trial in the Kennedy assassination against big government-do enough to stop those forces and bring justice to our world? Have we all done enough?" I close my eyes and dream of those easy-going days of old, when dinners were the most important time of day, when families came first in our lives. The days when I watched Mr. and Mrs. Kennedy greet those fans at Love Field with huge smiles on their faces shortly before tragedy struck. The day our world-as we knew it-changed forever. Where are our heroes today? What happened to our hope? The family in this book is the hope-the optimism-that we all possess. We must never let them take away our aspirations. And that is the key for our world's survival which will conquer any criminal force.
