Warhammer 40k Codex
Warhammer 40K: Codex (plural "codices", but "codexes" is also occasionally used) is the name of a source book for Warhammer 40,000 armies and factions containing background information, pictures, and rules.

**Codices** (List)—**Warhammer 40k**—**Lexiconum**

A codex (often pluralised as codexes by Games Workshop, though the grammatically correct pluralisation is codices), in the Warhammer 40,000 tabletop wargame, is a rules supplement containing information concerning a particular army, environment, or worldwide campaign.

**Codex** (Warhammer 40,000)—**Wikipedia**

A Codex is a publication of Games Workshop that details the units and models each army in the Warhammer 40,000 tabletop miniatures game can use when playing a game. The name is based on the Codex Astartes, the tome written by Roboute Guilliman, the Ultramarines Primarch, detailing how a Space Marine Chapter should be organized.

One of the first codexes to hit the shelves is Codex: Necrons, and for the lore alone, it will be an unmissable read for every Warhammer 40,000 fan. With even more brand-new units on their way and an army-wide rules overhaul, this book will also be a (literal) game-changer for the Necrons on the battlefield!

The Codex Show—Warhammer Community

The Warhammer 40,000 rules team have also taken the opportunity to review every single unit and weapon profile for each army, and where they felt it was needed, dialled them up to 11. We ' re not even joking! The first two codexes, as we know already, are for the Necrons and Space Marines.

The Codex Astartes is a great and sacred tome of military organisation, strategy and tactics written by Roboute Guilliman, the Primarch of the Ultramarines Space Marine Legion, to prevent another civil war like the Horus Heresy. It outlines Guilliman's ideal for the moral behaviour, order of battle and tactical doctrine of a Space Marine Chapter.

The Necrons are a deathless race of alien androids, rulers of the galaxy in a long-forgotten era. Now, having slumbered in stasis for millennia, they are rising up to conquer it again. Clad in self-repairing bodies of living metal and wielding weapons that harness the most devastating energies of the cosmos, the Necrons are a terrifying enemy. Fearless, relentless, and utterly without mercy, they advance in serried ranks and lay down withering storms of fire fit to annihilate even the mightiest of foes. The hyper-resilient Necron soldiary are supported by murderous specialist units, techno-sorcerous war machines, mindless Canoptek constructs, and shards of shattered star gods. They are led to war by undying nobles wielding weapons of devastating power, driven by the absolute conviction that they are the rightful rulers of the stars. And if the long sleep has reduced many Necrons to mindless monsters, or ravaged their sanity and transformed them into murderous demigods? Such madness only makes them an even greater and more terrible threat.

This 136-page book contains a treasure trove of background information covering prominent Ork conflicts from the past and present, accompanied by stunning artwork and galleries of painted miniatures. Codex: Orks grants you a detailed look into the organisation of Ork armies, be they small planetary raiding forces or monstrous Waaaghs, as well as the troops, leaders, and war machines that fight among them. The book also has everything you need to know to field them in battle on the tabletop, including 61 datasheets, 7 Clan Kulturs, Stratagems, Relics, and more.

The Thousand Sons advance into battle amidst goutts of kaleidoscopic warpflame and bolts of raw sorcery. Led by the towering figure of the Daemon Primarch Magnus the Red, these sanity-blasting hoets surge into battle to work the will of Tzeentch. Everything they do furthers the labyrinthine plans of their deity. To fight the Thousand Sons is to battle the entangling strands of fate itself, never knowing whether you're serving their inscrutable ends, even in victory. In war, the Thousand Sons combine the might of stalwart Chaos Space Marines with throngs of cultists and mutated beasts. At their core, the Thousand Sons' mastery of sorcery means they fight a war of flesh and blood, but also of psychic mastery - only the strongest enemy psykers can hope to match their potency. This 96-page book will give you everything you need to launch a crusade of eldritch terror across the galaxy, and make the most of the myriad units available to you.
