Women on the Edge, a collection of Alcestis, Medea, Helen, and Iphigenia at Aulis, provides a broad sample of Euripides' plays focusing on women, and spans the chronology of his surviving works, from the earliest, to his last, incomplete, and posthumously produced masterpiece. Each play shows women in various roles--slave, unmarried girl, devoted wife, alienated wife, mother, daughter--providing a range of evidence about the kinds of meaning and effects the category woman conveyed in ancient Athens. The female protagonists in these plays test the boundaries--literal and conceptual--of their lives. Although women are often represented in tragedy as powerful and free in their thoughts, speech and actions, real Athenian women were apparently expected to live unseen and silent, under control of fathers and husbands, with little political or economic power. Women in tragedy often disrupt "normal" life by their words and actions: they speak out boldly, tell lies, cause public unrest, violate custom, defy orders, even kill. Female characters in tragedy take actions, and raise issues central to the plays in which they appear, sometimes in strong opposition to male characters. The four plays in this collection offer examples of women who support the status quo and

women who oppose and disrupt it; sometimes these are the same characters.

"I have decided that the trouble with print is, it never changes its mind," writes Ursula Le Guin in her introduction to *Dancing at the Edge of the World*. But she has, and here is the record of that change in the decade since the publication of her last nonfiction collection, *The Language of the Night*. And what a mind – strong, supple, disciplined, playful, ranging over the whole field of its concerns, from modern literature to menopause, from utopian thought to rodeos, with an eloquence, wit, and precision that makes for exhilarating reading.
